

TERRAIN II

terrain II

Bring the rustic beauty of the outdoors in with the new Terrain II luxury vinyl tile collection. Terrain II features oak, walnut, and rustic wood visuals with 20 contemporary colorways. All colors are available in 12 mil, 20 mil and 30 mil wear layers to fit various end use requirements.

Layered durability

Terrain II's layered construction is engineered for enhanced durability in high demand environments. It features our maintenance friendly ExoGuard+™ finish with more resistance to scratching, staining, and improved cleanability.

1. ExoGuard+™ Finish

Adds resistance to scratching, staining, and abrasion

2. Clear Wear Layer

Protects against premature product aging, available in 12 mil, 20 mil and 30 mil constructions

3. High-Resolution Image

Creates a stunning visual with depth and detail

4. Commercial Core

Provides additional residual indentation performance

5. Commercial Backing

Improves adhesion to the substrate

ExoGuard+™

Terrain II products feature an ExoGuard+™ finish, our industry-leading top coat that meets the highest performance standards defined by strict scratch, stain and cleanability requirements. ExoGuard+™ is a true polish-optional top coat that can be installed without polishing, reducing maintenance costs. It requires no additional prep work if a polished look is desired.

Improved Cleanability

The new ExoGuard+™ provides industry-leading stain resistance and improved cleanability for use in demanding environments.

Superior Durability

ExoGuard+™ provides excellent stain, scratching and abrasion resistance.

Made in the USA

Terrain II is Shaw Contract's first luxury vinyl tile made in the USA.

Static & Rolling Loads

Terrain II performs in environments with heavy static and heavy rolling loads per ASTM test methods.

Polish-Optional Reduces Cost

ExoGuard+™ is a polish-optional finish that can reduce the cost of annual maintenance and it requires no coating prep work, if a polished look is desired.

Increased Pattern Variation

Terrain II features extended pattern repeats resulting in increased plank variations to replicate the look of real wood.

Recommended Applications 12 mil

Ideal for Light Commercial Environments

Senior Living | Light Retail | Multi-Family

	Light	Moderate	Heavy
Foot traffic	[Progressive bar chart]		
Rolling Loads	[Progressive bar chart]		
Static Loads	[Progressive bar chart]		

Recommended Applications 20 mil & 30 mil

Ideal for Heavy Commercial Environments

Education | Healthcare | Corporate | Retail | Hospitality

	Light	Moderate	Heavy

Materials & Resources

IEQ - Floorscore® IAQ Certification

Phthalate-Free

Manufactured to be truly free of ortho-phthalates

Certified for low VOCs

Solar Energy

With the largest rooftop-mounted photovoltaic solar array in the southeastern U.S., Shaw generates 1 megawatt of power per year-- the equivalent to removing 198 passenger vehicles from the road.

Water Use

For every 1 pound of finished product, Shaw has reduced the amount of water required to produce it by 36%.

Carbon Disclosure Project

As global citizens, Shaw encourages transparent discussion surrounding our carbon footprint. Each year, we submit our third-party verified carbon emissions to the CDP.

Color Variations

Shade and texture variation is inherent in all wood visual products. It can vary slightly or significantly from piece to piece within a color. V1 shade variation has little or no variation from piece to piece. V4 will have a large variation in color and/or texture.
